Functions

Instructions

1. Install two AAA batteries (included in the package) into the battery tray.
2. Connect the transmitter into the 3.5 mm port of your audio device (such as an iPod). When the transmitter detects audio input, it automatically displays the frequency on the screen.
3. To manually tune:
 - a. Tune the car's FM stereo to a clear frequency.
 - b. Tune the transmitter to the same frequency by using the down (<) or up (>) buttons.
4. To automatically scan for the best clear frequency:
 - a. Press the AUTO SCAN button.
 - b. Tune the car's FM stereo to the same frequency.
5. To automatically store the four best frequencies in memory, press the AUTO SCAN button down for three seconds.
6. To tune to a frequency stored in memory:
 - a. Display the four frequencies stored in memory, press (M).
 - b. To go to the next frequency in memory, press (M) again.
 - c. Tune the car's FM stereo to the same frequency.
